EXPERIENCE

Core member

Robotic Process Automation Club

July 2023 – Ongoing

K L University

- Our vision is to work smart
- Our job is to make the work simpler using automation tools like Automation Anywhere 360, UiPath, Blue Prism, etc.,
- We are still in the learning process of these tools

PROJECTS

Piezoelectricity

4 months

We done some research on converting human kinetic energy into electricity using piezoelectric materials.

Smart Zebra Crossing

1 month

I done this project during my 1-2 using my knowledge on Arduino UNO, sensors, servo motors etc... This is a IOT based Application.

Library Circulation System

C

2 month

I have done this Library Circulation system using C language[Linked lists concepts], which performs several operations like inserting a book, borrowing the book, returning the book, books history etc.....

Bibliophile

JAVA

2 month

This application will enable users to easily access, navigate, search, and highlight information , ultimately improving productivity and enhancing the overall reading experience

LEARNING

Python

DS

Python Full Stack Web Development

DBMS

ML

Automation Anywhere 360(RPA)

MY LIFE PHILOSOPHY

"Do not fear failure but rather fear not trying"

STRENGTHS

Fast Learner

Eye for detail

Motivator & Leader

SKILLS

C

JAVA

Python

Automation Anywhere 360 tool

LANGUAGES

Telugu

English

Hindi

EDUCATION

Class 10

The Central School

June 2019 – May 2020

Percentage : 99

Class 11 and 12

Sri Chaitanya Junior College

June 2020 – March 2022

Percentage : 97.6

B Tech Computer Science Engineer-
ing

K L University

August 2022 – ongoing

CGPA : 9.85
